REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The specific limitations of "said foam tube having an exterior surface and an interior surface, said exterior surface able to be received within said spring and said interior surface able to receive a drilling or cutting tool bit" and "at least one guide to maintain the centerline of said protective shield on the centerline of said protective shield on the centerline of said drilling or cutting tool, said guide having top and bottom ends and internal and external surfaces, said internal surface of said bottom end able to receive a drilling or cutting tool chuck and said external surface able to receive said first end of said spring, said top end external surface able to be received by said back end of said cylindrical-shaped housing said top end having a retention means....." are not anticipated or made obvious over the prior art of record in the examiner's opinion.

For example 2,339,324 discloses a protective shield comprising a cylindrical shaped housing and spring (fig 3) but does not disclose the foam tube or guide as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
